River's Edge Custom Covers & Gear is proud to be a designer and manufacturer that provides quality products and great customer service.

We have over 25 year of experience designing and manufacturing of sewn goods and have produced many new innovative products for railroad, forestry, oil and gas, mining, petrochemical, as well as health and safety.

Quality, innovation, and service remain our strength in an otherwise challenging industry, working together with you our valued customer.

We appreciate that choosing the right company to supply your sewn products is an important decision which is why we want you to know what to expect when purchasing a River's Edge Custom Covers & Gear product.

We use only the finest raw materials from trusted sources specifically chosen for the end product based on our vast experience working together with our customer in their defined work field or industry.

F.R. HOODIE

Manufactured using tested and proven Westex UltraSoft®.

11 oz, blended fleece, 88% cotton, 12% nylon

A very well designed pattern makes our hoodies stand out from the rest with a comfortable fit, made right here in Alberta.

We took customer feed back and redesigned the hood seam so that we do not have that irritating seam in the hood that causes that uncomfortable fit against your forehead when you are wearing a hard hat over the hood.

We choose a open end finish on both the arms and waist for a more practical fit and finish.

HUNTING VEST

This vest was designed by a hunter for hunting and it is perfect for field or stand hunting.

Extensive field testing and consulting with hunters worked out the issues with bulky back packs and fanny packs. This vest will be your go to item to carry all the gear that you should be carrying when you go a field.

Available in most camo patterns in trade mark USA manufactured cordura.

Features:

Durable DuPont Cordura outer shell with 10 oz black fleece interior.

Unique on the fly side adjustment straps for adjusting to different thicknesses of clothing.

One size fits most, call for custom "large" size.

Front zipper closure, separate radio and GPS pocket on top front of vest.

2 lower pleated safety flap front pockets for quick access items such as flash lights, game calls, knives, and safety items.

Rear of vest has a built in expandable backpack with a multitude of individual compartments to organize everything you carry to go a field such as batteries, light , ropes, saws, emergency kits, fire starter, hunting tags, food and water for the day—you name it.

Accessory loops on shoulders and rear of pack for tying on gadgets and gear.

The front of the vest also has a built in binocular harness system to keep you binoculars up front and handy and brings them tight to the body in away that you almost forget your carrying them. Grab your binoculars up for viewing fast, easy safe and secure.

Excellent for archery and rifle hunting, all you need is this vest and your weapon of choice to hit the forest and be fully equipped ready for what ever the hunt brings your way.

(Optional binocular covers available for this system, protects and keeps rain, dirt from viewing lenses made from matching camo patterns c/w flip top viewing hood)

GEAR BAGS

Our gear bags are specifically designed for function and durability. They are resilient to ultraviolet rays, oil, mildew, and temperatures down to -40°C.

These bags will last a lifetime and can be used for just about any purpose. Our bags feature heavy duty construction and come in a variety of colours.

For large quantity orders, our bags can be customized to your specifications.

PUMPER HOSE DEPLOYMENT BAG

The Pumper Hose Deployment Bag is designed for quick, hassle free deployment of the hose. Made with 18 oz woven polyester scrim coated with PVC.

- Carries 5 lengths of 100' pre-coupled 1.5" hose
- Hose dispenses so that it lays flat for easy pressure-up of the hose
- Open the hose port flap, put on the pack and walk out the hose
- Ergonomically designed laser cut foam shoulder straps
- Reinforced bottom

FORESTRY HOSE BAG

Hose storage and deployment backpack. Designed to carry either boxed fire hoses or loose fire hoses. Built to strict OMNR Forestry specifications, a proven design.

- Heavy duty nylon webbing, double and triple reinforced stress areas
- Base material doubled on bottom and heavy duty shoulder straps
- Sized to fit specified hose boxes platform
- American made DuPont 1000 denier cordura

URBAN INTERFACE HOSE DEPLOYMENT BAG

The Urban Interface Hose Deployment Bag is a smaller version of the Pumper Hose bag. It has a large accessory compartment and side pockets for a foam tube and hose strangler. Made with 18 oz woven polyester scrim coated with PVC.

- Holds 4 lengths of pre-coupled hose for walk-out deployments
- Can be used in conjunction with our Urban Interface Kit to create a WUI attack system

Hose and accessories not included.

COLLAPSIBLE WATER BUCKET

- Unique welded design makes for leak proof quality
- Sturdy webbing handle with bar-tack stitching
- Top metal ring allows for stability of bucket
- Collapsible for storage in small places
- Holds 4.5 Liters

SHOVEL COVER

- Heavy duty material to protect shovel spade
- Reinforced with metal tacks to prevent blade from cutting seams
- Velcro closure to keep shovel cover on spade

PULASKI AXE COVER

- Made with 18 oz polyester scrim coated with PVC
- Designed for the Pulaski style axe
- Reinforced with metal tacks to prevent blade from cutting seams
- Snap closure for grub hoe or mattock

Chainsaw not included.

CHAINSAW TOOL POUCH

The Chainsaw Tool Pouch is essential for safe and clean storage of your chainsaw and accessories. Made with 8 oz woven polyester scrim coated with PVC.

- Reinforced stress areas
- Protects chainsaw belt, allows for safe transport
- Carries all your chainsaw accessories in the side pouch
- Two separate pouches, one on each side of blade
- Easy on/off snap attachment to unit
- Keeps blade sharp and prevent damage
- Velcro closure on pouch
- Adjustable strap to secure pouch onto chainsaw blade
- Binding at tip of blade for extra protection
- Custom logos available

HELI CARGO BAG

HELI PUMPER BAG

HELI CHAINSAW BAG

HELI CARGO BAG, HELI PUMPER BAG & HELI CHAINSAW BAG

These 3 bags are built to BC forestry specifications using American made DuPont Cordura, YKK zippers, nylon webbing, rated seat belt webbing and metal hardware. Removable internal liner made from 28 oz PVC coated polyester.

Rivers Edge (formerly "What On Earth Wildland Gear") earned an excellent reputation at designing and manufacturing specific gear bags and won numerous Government tenders over the years supplying Alberta, British Columbia, Saskatchewan and others with these very specific products. This proved to be very educational for our team to develop long lasting performance proven bags and gear for demanding industries. Do you require a specific design that you would like to develop or need a Canadian manufacturer of your sewn product? We have over 25 years experience in the textiles industry and can claim numerous developments of gear bags, safety vests and carrying solutions, still being used today by professionals in numerous industries. Please call us for inquiries.

48 HOUR BAG/FIREFIGHTER KIT BAG

Firefighters use this bag for more of their personal gear as it has numerous outside pockets for smaller items. 2 main large interior compartments and I.D. tag for identification.

- MFG using American DuPont 1000 denier Cordura a proven military and high wear fabric
- Webbing shoulder straps and side carrying handle
- 1" side and bottom compression straps to compress and secure items

48 Hour Bag

- 15" L x 22" H x 10" W

72 HOUR BAG/SUPER GEAR BACKPACK

This bag has been very popular for firefighting personnel. It has been dubbed the "72 hour pack" as well as the Super Gear Backpack in the Wildland Fighting field because it can be loaded up with gear then carried as a backpack which is great for crews loading in trucks and or planes for their shifts on duty.

- The shoulder straps fold away in a bottom compartment for convenience and safety during flights
- A heavy duty 1200 denier polyester fabric insure long wear and tear
- Personal ID tag, 3" H.D. webbing, all nickel metal hardware and storm flaps over heavy duty self repairing #10 zippers
- Expandable side pouches for smaller quick access items

72 Hour Bag

- 34" L x 15" H x 14" W

CANADIAN SKI PATROL

SYNCRUDE

BACKPACKS

We have extensive knowledge manufacturing backpacks for specialty applications where offshore bags just don't work.

We originally designed a fanny pack for the Canadian Ski Patrol which has been used for years and when we were asked to design a backpack for them we came up with a specific design with the help of their input and requirements. This is our second season providing them with a durable custom "Made in Canada" backpack.

Many of our forestry, search & rescue, and firefighter backpacks are still in service today.

Call us today and we can use our years of experience to build you that perfect backpack or gear bag.

Full F.R. backpack for environments that must be full F.R. such as the oil & gas sectors. All fabric and components meet full F.R. requirements.

FRONT BIB STYLE RADIO CHEST PACK

This is our dual radio chest pack for those requiring dual radios such as team leaders and rescue personnel.

- Zippered mesh pouch, water bottle and accessory pouch
- 3M™Scotchlite™ reflective material
- Made from 420 denier pack cloth

DELUXE RADIO CHEST PACK

This is a very popular model for us, comfortable and highly visual. Great for yard workers or any one that needs to carry a little more than just a radio.

- Manufactured from our proprietary tri laminate foam which is very light weight and padded
- Expandable radio compartment fits most radios, large covered note book or accessory pouch
- Hi viz yellow reflective for day and night visibility, mix clip straps and full adjustable harness

TEAR AWAY RADIO CHEST PACK

Railroad personnel or workers near moving traffic require tear away in the event of a hang up. We designed this with the railroad personnel and all attachments tear away under a sudden pull keeping your workers safe.

- Made from bright orange nylon fabric, top zippered pocket for documents, pen slots, fully adjustable radio attachment fits all radios
- Hi viz yellow reflective

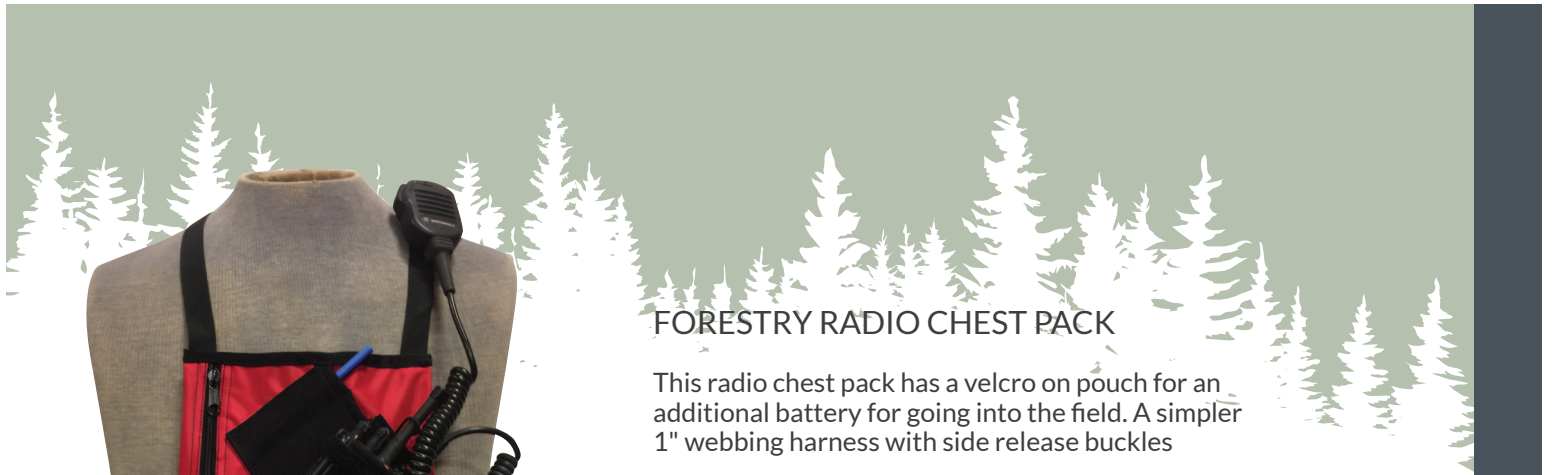

HI VIZ RADIO CHEST PACK

This is a new model that fits the newer smaller radios and addresses the need for more hi viz ability using 2" yellow silver yellow 3M™Scotchlite™ reflective material.

- Radio pouch fits smaller radios secure with the antenna loop and a secure snap system
- Even upside down the radio can not fall out
- Still has the 4 corner tear away system for worker safety, top zippered pouch and a pen slot
- Bright orange 420 denier pack nylon fabric

FORESTRY RADIO CHEST PACK

This radio chest pack has a velcro on pouch for an additional battery for going into the field. A simpler 1" webbing harness with side release buckles

- Made from 420 denier pack nylon the readily attachment can be modified to fit old and new radios with an antenna loop so you can never loose your radio
- Multiple pen pockets and side entry zippered pocket
- Adjustable harness for a personal fit

RADIO HOLSTERS

This belt style radio holster fits most radios securely and can be added to packs or belts.

- Fully adjustable velcro secures radio
- Comes with a radio antenna loop
- 2" high viz reflective
- Plastic main frame for support and durability
- Adjustable velcro security strap keeps radios safe

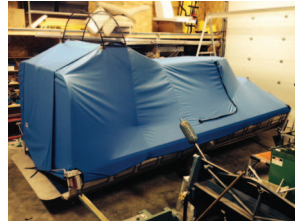

SMART PHONE HOLSTER

Working in the field and need a safe secure holster for your phone, this unique design secures your favourite smart phone securely on the side of your chest out of the way but easily assessable.

- Unique elastic harness with plastic pant clips secures easily and is fully adjustable to customize to your fit
- Fits all sizes of phones, back zippered compartment and accessory sleeve
- Never lose or misplace your phone again, great for field working applications when you need to know where your phone is

BOAT & EQUIPMENT COVERS

Designing and fabricating custom covers for boats and industrial equipment becomes a natural progression after years of sewing custom products for a wide range of customers. Big or small we can cover them all.

MOTORCYCLE BAGS

As a premiere bag designer and manufacturer it's an easy move to custom motorcycle bags. These are a few made specific for the BMW 1200 GSA. Water resistant fabric and zippers throughout and easy attachment straps.

Why travel like this when you can stream line with custom made bags specific to your bike and needs. Complete bag system, safely, securely, greatly expands your cargo carrying capacity.

Front large capacity pannier bags.

Rear carry all duffel, large clam shell opening, water resistant zippers, heavy duty grab handles, quick release webbing attachment straps and lash tabs.

Rear seat replacement tool gear bag. Left and right lower saddle bags.

CUSTOM SEWING

There are hundreds of products that we have developed and manufactured over the years that are not shown in this publication that are still being manufactured by Rivers Edge today. This publication is to inform and highlight some of our premier products and to give an overview of what we can do for you.

Does your company manufacture an item that needs to be in a custom made padded, reinforced bag then look no further. We have been making specialized foam bags and cases for electronic equipment, measuring equipment, instruments, tools, field kits, forestry, railroad and the oil & gas sectors for many years. This experience developing these items has given us the ability to stand out when it comes to unique applications and solutions.

Do you have a product you want to bring to market but don't want to have it made overseas? Again look no further. The experience we have acquired over the years can only come from bringing talented workers and the latest technologies and materials to your end product to provide solutions that work.

Custom contract sewing - need a company with years of experience to help your design or manufacture your products. We can source a solution and share our experience to bring your product to market.
